

Please can you fill in this form to tell us what you are able to do to help with at The George Community Hub?

During the refurbishment, the first thing we are looking for are people to help with general clearing and tidying of the building and courtyard garden. We will contract builders to do the specialised work, but if you could do DIY jobs, please say. We will need people to help with decorating/painting the interiors. If you have any contacts or skills regarding the fitting out of the kitchen, bakery, business hub and café please let us know.

Once the building is refurbished and fitted out and we are ready to launch trading, we will need to know who is willing to help out and put in time in the Café, the Business Hub, the Bakery and the community events that will be run at the George
